

# Automatic Nursing Machine

Designed to provide a constant, uniform, and easily accessible supply of milk replacer/formula for various domestic animals such as lambs and goat kids. The machine automatically mixes small quantities of powdered milk replacer/formula with warm water at a desired concentration.

TWO MODELS AVAILABLE:

## OVIS-40

## OVIS-80

see back for details

# Makes 500ml of fresh warm milk on demand

### Milk replacer hopper

- Fits one 25lb bag of milk replacer/formula
- Transfers replacer/formula into the auger and then into the mixing bowl.
- Two wipers move powder to prevent caking.

### Control panel

- Simple ON/OFF operation
- Powder/Rinse

- Thermostat: adjust to desired temperature

### Water control knob

- Adjust the water up or down to reach required concentration

### Milk mixing bowl

- Mixes hot water and milk replacer on demand
